Education - Education - Education

In the coming weeks, the Field Service Representatives will be contacting you to determine if you're interested in planning educational meetings for your staff. These meetings can be designed to meet your agency's needs and are usually done as either one-on one scheduled meetings or 60-minute Benefit Seminars. We are available to meet with your staff at any location throughout the state and cover virtually all shifts.

A well-educated and informed membership will be better able to assess and plan for their future. If you have questions about our educational program, call Vickie at 217-785-6979. Let's make 2010 the year to better educate SERS members!
