Online Workshop Registration

We are excited to announce that later this year, state employees will be able to register for SERS workshops online instead of initially going through you, their Retirement Coordinator. However, you will still have final workshop approval. To ensure that this process runs smoothly, our 2014 workshop registration won't begin until October 1, 2013. At that time, registration will be completed using our website (www.srs.illinois.gov) and following step-by-step instructions. RC training and additional information about online registration will be introduced as we get closer to the launch date!

The August SERS-O-GRAM contains information about the online workshop registration process as well as the 2014 workshop schedule. This newsletter will be mailed to active members later this month along with the annual Benefit Statement. For questions about this new process, email Amy or Vickie at amy.little@srs.illinois.gov or vickie.haas@srs.illinois.gov
