The Board of Trustees and Members
Judges' Retirement System of Illinois
Springfield, IL 62794

Dear Board of Trustees and Members:

The comprehensive annual financial report of the Judges' Retirement System of Illinois (System) as of and for the fiscal year ended June 30, 1996 is hereby submitted. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the System. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the System. All disclosures necessary to enable the reader to gain an understanding of the System's financial activities have been included.

The report consists of six sections:

1. An Introductory Section which contains this letter of transmittal and the identification of the administrative organization;
2. The Financial Section which contains the report of the independent public accountants, the financial statements of the System, and the supplementary financial information;
3. The Actuarial Section which contains the report of the Actuary as well as the summary of major actuarial assumptions and certain tables;
4. The Investment Section which contains a summary of the System's investment management approach and selected summary tables, including investment performance;
5. The Statistical Section which contains significant statistical data; and
6. A summary of the System's plan provisions and current legislative changes.

Generally accepted accounting principles require that the financial reporting entity include (1) the primary government (2) organizations for which the primary government is financially accountable and (3) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Based on the criteria of the Governmental Accounting Standards Board Statement No. 14, there are no other state agencies, boards or commissions, or other organizations required to be combined with the System, however, the System is considered to be part of the State of Illinois financial reporting entity, and is to be combined and included in the State of Illinois' comprehensive annual financial report.

Although the Judges' Retirement System, State Employees' Retirement System and General Assembly Retirement System share a common administration, they are separate entities for legal and financial reporting purposes. Therefore, the financial statements of the Judges' Retirement System do not include balance sheet information nor the results of operations of the State Employees' Retirement System or General Assembly Retirement System.

PLAN HISTORY AND SERVICES PROVIDED

The Judges' Retirement System of Illinois (System) was established as a public employee retirement system (PERS) by state statute on July 1, 1941. The mission of the System as prescribed by state statute is to "establish an efficient method of permitting retirement, without hardship or prejudice, of judges who are aged or otherwise incapacitated, by enabling them to accumulate reserves for themselves and their dependents for old age, disability, death, and termination of employment."

Responsibility for operation of the System and the direction of its policies is vested in a Board of Trustees consisting of five members. The administration of the detailed affairs of the System is the responsibility of the Executive Secretary who is appointed by the Board of Trustees. Administrative policies and procedures are designed to ensure an accurate accounting of funds of the System and prompt payment of claims for benefits within the applicable state statute.

REVENUES

Collections of employer and participant retirement contributions, as well as income from investments, provide the reserves necessary to finance retirement benefits. These revenue sources totaled \$52.235 million during the fiscal year ending June 30, 1996, which is a significant increase from the amount of revenue reported for fiscal year 1995, shown as follows:

	1996 (Millions)	1995 (Millions)	Increase/(Decrease) (Millions)	(Percentage)
Contributions:				
Participants	\$ 9.786	\$ 8.943	\$.843	9.4%
Employer	12.129	11.151	.978	8.8%
Investments	30.320	16.001	14.319	89.5%
Total Revenue	<u>\$ 52.235</u>	<u>\$ 36.095</u>	<u>\$ 16.140</u>	<u>44.7%</u>

As indicated in the above schedule, approximately 90% of the total revenue increase was attributable to an increase in investment income which was largely the result of significant net realized gains on the sale of investments.

EXPENSES

The primary expense of a retirement system relates to the purpose for which it is created; namely the payment of benefits. These payments, together with the expense to administer the plan, constitute the total expenses of the System. Expenses of the System for fiscal year 1996 and 1995 are shown below for comparison purposes.

	1996 (Millions)	1995 (Millions)	Increase/(Decrease) (Millions)	(Percentage)
Benefits:				
Retirement annuities	\$ 26.186	\$ 22.702	\$ 3.484	15.3%
Survivors' annuities	6.911	6.476	.435	6.7%
Total Benefits Expenses	<u>\$ 33.097</u>	<u>\$ 29.178</u>	<u>\$ 3.919</u>	<u>13.4%</u>
Refunds	.503	.348	.155	44.5%
Administrative expenses	.306	.302	.004	1.3%
Total Expenses	<u>\$ 33.906</u>	<u>\$ 29.828</u>	<u>\$ 4.078</u>	<u>13.7%</u>

The increase in benefit payments resulted primarily from (1) a growth in the number of benefits paid, (2) an increase in the average benefit payment amount, and (3) post retirement annuity increases granted each January 1.

INVESTMENTS

The System's investments are managed by the Illinois State Board of Investment (ISBI) pursuant to Chapter 40, Article 5/22A of the Illinois Compiled Statutes. For the fiscal year ended June 30, 1996, the total investment return on the market value of assets managed by the ISBI was 16.6% compared to 14.0% during the fiscal year ended June 30, 1995.

Total fiscal year 1996 investment income of \$30.320 million represents a significant increase of \$14.319 million (89.5%) over the fiscal year 1995 level of \$16.001 million. The System's total investments revenue for fiscal year 1996 and 1995 is shown below for comparison purposes.

	1996 (Millions)	1995 (Millions)	Increase/(Decrease)	
			(Millions)	(Percentage)
Net investments income	\$ 10.384	\$ 10.786	\$ (.402)	(3.7)%
Net realized gain on sale of investments	19.662	4.927	14.735	299.1%
Interest earned on cash balances	.274	.288	(.014)	(4.9)%
Total Investments revenue	<u>\$ 30.320</u>	<u>\$ 16.001</u>	<u>\$14.319</u>	<u>89.5%</u>

For the fiscal year ended June 30, 1996, income from investments represents 58.0% of total fund revenue.

A detailed discussion of investment performance and strategies are provided in the Investment Section of this report.

FUNDING AND RESERVES

Funding is the process of specifically allocating monies for current and future use. Proper funding includes an actuarial review of the fund balances to ensure that funds will be available for current and future benefit payments.

The actuarial determined liability of the System at June 30, 1996, amounted to \$577.8 million. The fund balances for participant contributions and future operations amounted to \$232.4 million as of the same date. The amount by which the actuarial determined liability exceeds the fund balances is called the "unfunded present value of credited projected benefits." The unfunded present value of credited projected benefits amounts to \$345.4 million. A detailed discussion of funding is provided in the Actuarial Section of this report.

ECONOMIC CONDITION AND OUTLOOK

Financing the retirement benefits that are being earned is one of the most important issues facing the Judges' Retirement System. In prior years, a number of individuals and organizations stressed the need for sound funding of the state's retirement systems including the Judges' Retirement System. Although previous attempts have been made at providing an adequate funding level to the System, none have been very successful.

In August, 1994, Governor Edgar signed Senate Bill 533 into law as Public Act 88-0593. This funding legislation, which became effective on July 1, 1995, (i.e. fiscal year 1996), provides for a systematic 50 year funding plan with an ultimate goal to fund the cost of maintaining and administering the System at an actuarial funded ratio of 90%. In addition, the new funding plan provides for a 15 year phase-in period to allow the state to adapt to the increased financial commitment. Once the 15 year phase-in period is complete, the state's contribution will then remain at a level percentage of payroll for the next 35 years until the 90% funded level is achieved.

Most importantly, the new funding legislation also provides for the establishment of a continuing appropriation of the required employer contributions to the System. This will, in effect, remove the appropriation of these funds from the annual budgetary process. Although long-term in nature, we believe this legislation is an extremely positive step forward which will ensure the long-term financial integrity of the state's retirement systems including the Judges' Retirement System.

Besides the new funding plan, there were no other recent legislative changes having a significant impact on the funding of the System.

Assessing the financial status of any retirement system is a difficult task. The valuation of pension liabilities is a complex procedure requiring the application of actuarial techniques. It is not possible to provide a simple measure

of the financial status of a retirement system because no universally accepted measure of the financial status presently exists. The passage of a new funding plan by the state's General Assembly should ensure that benefits, both those presently accrued and those that will be earned in the future, will continue to be provided for in a timely and consistent manner.

MAJOR INITIATIVES

Projects for fiscal year 1997 include continuing to work towards the final implementation phase of an automated benefit calculation system as well as conducting a study to evaluate the feasibility of enhancing the annual active benefit statement to include a reciprocal system benefit estimate for those members who have service in another reciprocal system.

Additionally, the System will continue to offer the following increasingly popular field service programs at various locations throughout the state.

Pre-Retirement Seminars - This program is designed to assist participants who are planning to retire within the next twelve years to realistically assess their future needs and life-styles and take steps to achieve their selected future goals. The program focuses on estate and financial planning as well as total entitlement packages available from the System, Social Security Administration and deferred compensation.

Post-Retirement Seminars - This program is designed to assist annuitants and survivors to understand the benefits available to them, and assist them in the continued reassessment of the goals established prior to retirement. The program focuses on continued financial planning, Social Security and System benefits.

One-on-One Counseling - This program provides an opportunity for participants, annuitants and survivors to meet one-on-one with a System staff member to discuss their retirement plans or benefits.

ACCOUNTING SYSTEM AND INTERNAL CONTROL

This report has been prepared to conform with the principles of governmental accounting and reporting pronounced by the Governmental Accounting Standards Board and the American Institute of Certified Public Accountants. The accrual basis of accounting is used to record the assets, liabilities, revenues and expenses of the Judges' Retirement System. Revenues are recognized in the accounting period in which they are earned, without regard to the date of collection, and expenses are recognized when the corresponding liabilities are incurred, regardless of when payment is made. The Judges' Retirement System also uses the State of Illinois, Comptroller's Uniform Statewide Accounting System (CUSAS) as a basis for the preparation of the financial statements. In developing the System's accounting system, consideration is given to the adequacy of internal accounting controls. These controls are designed to provide reasonable assurance regarding the safekeeping of assets and the reliability of financial records. Constant effort is directed by the System at improving this level to assure the participants of a financially sound retirement system.

PROFESSIONAL SERVICES

Independent consultants are retained by the Board of Trustees to perform professional services that are essential to the effective and efficient operation of the System. Actuarial services are provided by Goldstein & Associates, Chicago, Illinois. Tax consulting services are provided by the accounting firm of KPMG Peat Marwick, Chicago, Illinois. The annual financial audit of the System was conducted by the accounting firm of McGladrey & Pullen, LLP under the direction of the Auditor General of the State of Illinois. In addition to the annual financial audit, a one year compliance audit was also performed by the auditors. The purpose of the compliance audit was to determine whether the Judges' Retirement System obligated, expended, received and used public funds of the state in accordance with the purpose for which such funds have been authorized by law. The System's investment function is managed by the Illinois State Board of Investment.

CERTIFICATE OF ACHIEVEMENT

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Judges' Retirement System of Illinois for its comprehensive annual financial report for the fiscal year ended June 30, 1995. The Certificate of Achievement is the highest form of recognition for excellence in state and local government financial reporting.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such financial report must satisfy both generally accepted accounting principles and applicable legal requirements.

Letter of Transmittal

A Certificate of Achievement is valid for a period of one year only. The Judges' Retirement System of Illinois has received a Certificate of Achievement for the last seven consecutive years (fiscal years ended June 30, 1989 through June 30, 1995). We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

ACKNOWLEDGMENTS

The preparation of this report reflects the combined efforts of the System's staff under the direction of the Board of Trustees. It is intended to provide complete and reliable information as a basis for making management decisions, as a means of determining compliance with legal provisions, and as a means for determining responsible stewardship for the assets contributed by the participants in the State of Illinois. On behalf of the Board of Trustees we would like to express our appreciation to the staff and professional consultants who worked so effectively to ensure the successful operation of the System.

Respectfully submitted,

Michael L. Mory

INDEPENDENT AUDITOR'S REPORT

To the Honorable William G. Holland
Auditor General, State of Illinois
Springfield, Illinois

Board of Trustees
Judges' Retirement System of Illinois
Springfield, Illinois

As Special Assistant Auditors for the Illinois Auditor General, we have audited the accompanying financial statements, as listed in the table of contents, of the Judges' Retirement System of Illinois as of and for the years ended June 30, 1996 and 1995. These financial statements are the responsibility of the System's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards and Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Judges' Retirement System of Illinois' as of June 30, 1996 and 1995, and the results of its operations for the years then ended in conformity with generally accepted accounting principles.

In accordance with Government Auditing Standards, we have also issued a report dated October 18, 1996 on our consideration of the Judges' Retirement System of Illinois' internal control structure and a report dated October 18, 1996 on its compliance with laws and regulations.

Our audits were made for the purpose of forming an opinion on the basic financial statements as of and for the years ended June 30, 1996 and 1995, taken as a whole. The supplementary information, included on pages 24 through 26, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly presented in all material respects in relation to the financial statements taken as a whole.

JUDGES' RETIREMENT SYSTEM OF ILLINOIS

Notes to Financial Statements
June 30, 1996 and 1995

(1) Reporting Entity

Generally accepted accounting principles require that the financial reporting entity include (1) the primary government (2) organizations for which the primary government is financially accountable and (3) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The Judges' Retirement System of Illinois (System) is administered by a Board of Trustees consisting of five persons, which includes the State Treasurer, the Chief of the Supreme Court, ex officio, and three participating judges appointed by the Supreme Court.

Based on the criteria of the Governmental Accounting Standards Board Statement No. 14, there are no other state agencies, boards or commissions, or other organizations required to be combined with the System, however, the System is considered to be part of the State of Illinois financial reporting entity, and is to be combined and included in the State of Illinois' comprehensive annual financial report.

(2) Plan Description

The System is the administrator of a single-employer defined benefit public employee retirement system (PERS) established and administered by the State of Illinois to provide pension benefits for its participants.

At June 30, 1996 and 1995, the System membership consisted of:

	<u>1996</u>	<u>1995</u>
Retirees and beneficiaries currently receiving benefits:		
Retirement annuities	444	415
Survivors' annuities	<u>275</u>	<u>273</u>
	719	688
 Inactive participants entitled to benefits but not yet receiving them	 35	 37
Total	<u>754</u>	<u>725</u>
 Current Participants:		
Vested	576	606
Nonvested	<u>290</u>	<u>269</u>
Total	<u>866</u>	<u>875</u>

Operation of the System and the direction of its policies are the responsibility of the Board of Trustees of the System.

(a) Eligibility and Membership

The Judges' Retirement System covers Judges, Associate Judges and, under certain conditions, the Administrative Director of the Illinois courts. Participation by Judges, either appointed or elected, is mandatory unless the Judge files an election not to participate within 30 days of receipt of notice of this option.

(b) Contributions

In accordance with Chapter 40, Section 5/18-133 of the Illinois Compiled Statutes, participants contribute specified percentages of their salaries for retirement annuities, survivors' annuities and automatic annual increases. Contributions are excluded from gross income for Federal and State income tax purposes.

The total contribution rate is 11% if the participant elects to contribute for their spouse and dependents as shown below:

7.5%	Retirement annuity
2.5%	Survivors' annuity
1.0%	Automatic annual increases
<u>11.0%</u>	

The statutes governing the Judges' Retirement System provide for optional contributions by participants, with interest at prescribed rates, to retroactively establish service credits for periods of prior creditable service. The Board of Trustees has adopted the policy that interest payments by a participant, included in optional contributions to retroactively establish service credits, shall be considered an integral part of the participant's investment in annuity expectancies and, as such, shall be included as a part of any refund payable.

The payment of (1) the required State contributions, (2) all benefits granted under the System and (3) all expenses in connection with the administration and operation thereof are the obligations of the State to the extent specified in Chapter 40, Article 5/18 of the Illinois Compiled Statutes.

(c) Benefits

After 10 years of credited service, participants have vested rights to full retirement benefits beginning at age 60, or reduced retirement benefits beginning at age 55. Participants also have vested rights to full retirement benefits at age 62 upon completing 6 years of credited service or at age 55 upon completing 28 years of credited service. The Judges' Retirement System also provides annual automatic annuity increases for retirees and survivors, survivors' annuity benefits, temporary and/or total disability benefits and, under specified conditions, lump-sum death benefits.

The retirement annuity provided under the system is 3-1/2% for each of the first 10 years of service, plus 5% for each year of service in excess of 10, based upon the applicable final salary. The maximum retirement annuity is 85% of the applicable final salary. Annual automatic increases of 3% of the current amount of retirement annuity are provided.

Participants who terminate service and are not eligible for an immediate annuity may receive, upon application, a refund of their total contributions. Participants or annuitants who are no longer married are entitled to refunds of their contributions for survivors. Participants who are age 60 or over with at least 20 years of service or who are age 60 or over and entitled to receive the maximum rate of annuity by using service credited in another reciprocal system may elect to discontinue contributions and have their benefits "frozen" based upon the applicable salary in effect immediately prior to the effective date of such election. The election, once made, is irrevocable.

(3) Summary of Significant Accounting Policies and Plan Asset Matters

(a) Basis of Accounting

The financial transactions of the System are maintained and these financial statements have been prepared using the accrual basis of accounting in conformity with generally accepted accounting principles. Participant and employer contributions are recognized as revenues in the period in which employee services are performed.

(b) Cash and Investments

The System retains all of its available cash in a commingled investment pool managed by the Treasurer of the State of Illinois (Treasurer). All deposits are fully collateralized by the Treasurer. "Available cash" is determined to be that amount which is required for the current operating expenditures of the System. The excess of available cash is transferred to the Illinois State Board of Investment (ISBI) for purposes of long-term investment for the System.

The System transfers money to the ISBI for investment in the ISBI Commingled Fund. This money is then allocated among various investment managers to pursue a specific investment strategy. All investment transactions are initiated by the investment managers (either internal or external). The transaction settlement information is then forwarded to the agent bank's trust department under a master custodial agreement. Custody of a majority of the actual physical securities is maintained at an agent of the agent bank's trust department using a book-entry system. The ISBI's master custodian is The Northern Trust Company. The agent of the master custodian is the Depository Trust Company.

Investments are managed by the ISBI pursuant to Chapter 40, Article 5/22A of the Illinois Compiled Statutes and are maintained in the ISBI Commingled Fund. Such investments are valued at the cost of the System's units of participation in the ISBI Commingled Fund. Units of the ISBI Commingled Fund are issued to the member systems on the last day of the month based on the unit net asset value calculated as of that date. Net investment income of the ISBI Commingled Fund is allocated to each of the member systems on the last day of the month on the basis of percentage of accumulated units owned by the respective systems. Management expenses are deducted monthly from income before distribution. Investment income is recognized when earned.

The investment authority of the ISBI is provided in Chapter 40, Article 5/22A of the Illinois Compiled Statutes. The ISBI investment authority includes investments in obligations of the U.S. Treasury and other agencies, notes secured by mortgages which are insured by the Federal Housing Commission, real estate, common and preferred stocks, convertible debt securities, deposits or certificates of deposit of federally insured institutions and options. Such investment authority requires that all opportunities be undertaken with care, skill, prudence and diligence given prevailing circumstances that a prudent person acting in like capacity and experience would undertake.

The System owns approximately 4.9% of the net investment assets of the ISBI Commingled Fund as of June 30, 1996.

ISBI investments, as categorized by ISBI are categorized to indicate the level of risk assumed by the ISBI at year end. Category I includes investments that are insured or registered or the securities are held by the master custodian in the ISBI's name. Category II includes investments that are uninsured and unregistered with the securities held by the counter-party's agent in the ISBI's name. Category III includes investments that are uninsured and unregistered with the securities held by the counter-party but not in the ISBI's name. Investments in pooled funds are not categorized because they are not evidenced by securities that exist in physical or book entry form.

At June 30, 1996, the ISBI's investments were categorized as follows:

	Market Value	Category I	Non Categorized
U.S. Government & Agency Obligations	\$ 272,041,711	\$ 272,041,711	\$
Foreign Obligations	46,497,033	46,497,033	
Corporate Obligations	655,882,887	655,882,887	
Convertible Bonds	12,356,980	12,356,980	
Common Stock & Equity Funds	1,844,773,931	1,614,256,117	230,517,814
Convertible Preferred Stock	11,539,034	11,539,034	
Preferred Stock	15,685,986	15,685,986	
Foreign Equity Securities	455,997,213	326,226,819	129,770,394
Real Estate Funds	243,308,942		243,308,942
Alternative Investments	274,289,456		274,289,456
Money Market Instruments	620,820,839	21,369,810	599,451,029
Forward Foreign Exchange Contracts	1,154,317	1,154,317	
Loaned Securities	959,943,956		959,943,956
Total Investments	\$ 5,414,292,285	\$ 2,977,010,694	\$ 2,437,281,591

The ISBI participates in a securities lending program whereby securities are loaned to brokers and, in return, the ISBI receives collateral of amounts slightly in excess of the market value of securities loaned. Collateral consists solely of cash, letters of credit, commercial paper and government securities. As of June 30, 1996 and 1995, the ISBI had outstanding loaned investment securities having a market value of approximately \$959,943,956 and \$593,757,824, respectively, against which it had received collateral of approximately \$994,346,404 and \$609,981,555, respectively.

(c) Actuarial Experience Review

In accordance with Illinois Compiled Statutes, an actuarial experience review is to be performed at least once every five years to determine the adequacy of actuarial assumptions regarding the mortality, retirement, employment, turnover, interest and earnable compensation of the participants and beneficiaries of the System. An experience review was performed as of June 30, 1992.

(d) Administrative Expenses

Administrative expenses common to the Judges' Retirement System and the General Assembly Retirement System are borne 60% by the Judges' Retirement System and 40% by the General Assembly Retirement System. Invoices/ vouchers covering common expenses incurred are paid by the Judges' Retirement System and 40% thereof is allocated to and reimbursed by the General Assembly Retirement System. Administrative expenses allocated to and reimbursed by the General Assembly Retirement System were \$168,592 and \$167,928 for the years ended June 30, 1996 and 1995, respectively.

(4) Funding Status and Progress

The amount shown on the next page as "pension benefit obligation" is a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases, estimated to be payable in the future as a result of participant service to date. The measure is the actuarial present value of credited projected benefits and is intended to help users assess the Judges' Retirement System funding status on a going-concern basis, assess progress made in accumulating sufficient assets to pay benefits when due, and make comparisons among PERS. The measure is the same as the actuarial funding method used to determine contributions to the System Trust Fund discussed in Note 5.

The pension benefit obligation was determined as part of an actuarial valuation as of June 30, 1996. Significant actuarial assumptions used include (a) rates of return on the investment of present and future assets of 8.0% per year (consisting of an inflation component of 4.5% per year and a real rate of return component of 3.5% per year), compounded annually, (b) projected salary increase of 6% per year (consisting of a general increase component of 5% per year, 4.5% of which is attributable to inflation, and a seniority/merit component of 1% per year), compounded annually, (c) mortality rates based upon the UP 1984 Mortality Table, (d) assumed age at retirement ranging from 55 to 75, based upon recent history with the System, (e) 75% of participants are assumed to be married, (f) the age of the spouse is assumed to be 4 years younger than the age of the participant, and (g) the rate of turnover without vested benefits assumes a high scale at younger age levels, becoming progressively lower as age advances.

At June 30, 1996 and 1995, the unfunded pension benefit obligation was \$345,359,263 and \$309,581,604 as follows:

	1996	1995
Pension benefit obligation:		
Retirees & beneficiaries currently receiving benefits	\$ 313,546,389	\$ 279,270,677
Inactive participants not yet receiving benefits	11,645,689	10,336,847
Current Participants:		
Accumulated participant contributions	71,463,189	69,049,571
Employer-financed vested	104,447,078	96,997,859
Employer-financed nonvested	76,689,911	68,030,677
Total Pension benefit obligation	\$ 577,792,256	\$ 523,685,631
Net assets available for benefits, at cost (market value at June 30, 1996 \$277,098,999; June 30, 1995 \$249,334,066)	232,432,993	214,104,027
Unfunded pension benefit obligation	\$ 345,359,263	\$ 309,581,604

There were no benefit changes enacted during fiscal years 1996 or 1995 having a significant impact on the actuarial present value of credited projected benefits and the related unfunded actuarial liability.

(5) Contributions Required and Contributions Made

For each fiscal year, the System's actuary performs an actuarial valuation and computes actuarially determined contribution requirements for the System, using the projected unit credit actuarial cost method. The same actuarial assumptions were used to determine the contribution requirements as are used to compute the pension benefit obligation discussed in Note 4.

For fiscal year 1995, the required employer contributions were computed in accordance with Public Act 86-0273 which was signed into law on August 23, 1989. Public Act 86-0273 enacted a funding plan under which, starting with fiscal year 1990, the state's contribution was to be increased incrementally over a seven year period so that by fiscal year 1996, the minimum state contribution would be an amount sufficient to meet the normal cost and amortize the unfunded actuarial liability over forty years as a level percentage of payroll as determined under the projected unit credit actuarial cost method.

For fiscal year 1996, the required employer contributions were computed in accordance with Public Act 88-0593. This funding legislation, which became effective July 1, 1995, provides for a systematic 50 year funding plan with an ultimate goal to fund the cost of maintaining and administering the System at an actuarial funded ratio of 90%. In addition, the new funding plan provides for a 15 year phase-in period to allow the state to adapt to the increased financial commitment. Once the 15 year phase-in period is complete, the state's contribution will then remain at a level percentage of payroll for the next 35 years until the 90% funded level is achieved.

It has been interpreted that the laws of the State of Illinois regarding state finance provide for the Governor and the state legislature to have specific authority to reduce or increase monies appropriated for the employer share of retirement contributions regardless of the amount certified by the Board of Trustees.

The total amount of actuarially determined contributions required for the fiscal year ended June 30, 1996 amounted to \$20,489,000 and consisted of (a) \$20,041,000 normal cost and (b) \$448,000 amortization of the unfunded actuarial accrued liability. Contributions totaling \$21,914,891 (\$12,129,000 employer and \$9,785,891 employee) were made during fiscal year 1996 and consisted of (a) \$21,466,891 normal cost and (b) \$448,000 amortization of the unfunded actuarial liability.

A comparison of the actuarially determined funding requirement for the fiscal year ended June 30, 1996, versus the actual funding shows that the state's employer contributions were made in accordance with the actuarially determined employer contribution requirements for the fiscal year.

	Pension Contributions			Received
	Normal Cost	Amortization of Unfunded Liability	Total	
Participants	\$ 8,360,000	\$ -	\$ 8,360,000	\$ 9,785,891
Percent of Pay	11.00%	-	11.00%	12.88%
Employer:				
State of Illinois	11,681,000	448,000	12,129,000	12,129,000
Percent of Pay	15.37%	.59%	15.96%	15.96%
Total	\$ 20,041,000	\$ 448,000	\$ 20,489,000	\$ 21,914,891
Percent of Pay	26.37%	.59%	26.96%	28.84%
Participant Payroll	<u>\$ 75,996,000</u>			

(6) Historical Trend Information

Historical trend information designed to provide information about the System's progress made in accumulating sufficient assets to pay benefits when due is presented on pages 24 - 25.

(7) Administrative Expenses

A summary of the administrative expenses for the Judges' Retirement System for fiscal years 1996 and 1995 is as follows:

	1996	1995
Personal services	\$ 169,850	\$ 163,348
Employee retirement contributions paid by employer	6,804	6,194
Employer retirement contributions	8,108	10,141
Social Security contributions	11,647	11,266
Group insurance	13,806	20,370
Contractual services	60,266	55,957
Travel	7,886	7,721
Printing	3,666	4,639
Commodities	662	451
Telecommunications	2,420	1,583
Electronic data processing	10,725	10,976
Depreciation	6,474	7,095
Other	3,438	2,676
Total	<u>\$ 305,752</u>	<u>\$ 302,417</u>

(8) Equipment

Fixed assets are capitalized at their cost at the time of acquisition. Depreciation is computed using the straight-line method over the estimated useful life of the asset. The estimated useful lives are as follows: (1) office furniture - 10 years, (2) equipment - 6 years, and (3) certain electronic data processing equipment - 3 years.

A summary of the changes in fixed assets for fiscal years 1996 and 1995 is as follows:

	Beginning Balance	1996		Ending Balance
		Additions	Deletions	
Equipment	\$ 44,338	\$ 590	\$ (1,355)	\$ 43,573
Accumulated Depreciation	(30,040)	(6,474)	1,178	(35,336)
Equipment, net	\$ 14,298	\$ (5,884)	\$ (177)	\$ 8,237
		1995		
	Beginning Balance	Additions	Deletions	Ending Balance
Equipment	\$ 41,545	\$ 3,141	\$ (348)	\$ 44,338
Accumulated Depreciation	(23,111)	(7,095)	166	(30,040)
Equipment, net	\$ 18,434	\$ (3,954)	\$ (182)	\$ 14,298

(9) Accrued Compensated Absences

Employees of the Judges' Retirement System are entitled to receive compensation for all accrued but unused vacation time and one-half of all unused sick leave earned after January 1, 1984 upon termination of employment. These accrued compensated absences as of June 30, 1996 and 1995 total \$29,697 and \$26,437, respectively and are included as administrative expenses payable.

(10) Pension Disclosure

All of the System's full-time employees who are not eligible for another state-sponsored retirement plan participate in the State Employees' Retirement System (SERS). The SERS is a single-employer defined benefit public employee retirement system (PERS) in which state agencies, including the System, participate on a cost-sharing basis.

A summary of SERS benefit provisions, changes in benefit provisions, employee eligibility requirements including eligibility for vesting, and the authority under which benefit provisions are established, is included as an integral part of the SERS Comprehensive Annual Financial Report (CAFR). Also included is a discussion of employer and employee obligations to contribute, the authority under which those obligations are established, as well as an explanation of the pension benefit obligation.

The pension benefit obligation at June 30, 1996 and June 30, 1995 for the SERS as a whole, determined through an actuarial valuation at that date was \$7.391 billion and \$6.988 billion, respectively. The SERS net assets available for benefits on these respective dates (valued at cost) were \$4.397 billion and \$3.923 billion, leaving unfunded pension benefit obligations of \$2.994 billion and \$3.065 billion. The System's FY1996 and FY1995 contribution requirement represented .005% and .006%, respectively of total contributions required of all state agency/department employers participating in the SERS.

Ten-year historical trend information designed to provide information about the SERS progress made in accumulating sufficient assets to pay benefits when due is presented in its separately issued CAFR for the year ended June 30, 1996.

Pertinent financial information relating to the System's participation in SERS is summarized as follows:

The System's covered payrolls for FY1996 and FY1995 were \$169.9 thousand and \$163.3 thousand and the payrolls for all System employees were \$169.9 thousand and \$163.3 thousand, respectively.

The System's (i.e., the employers') actuarially determined contribution requirements for FY1996 and FY1995 were \$8.1 thousand and \$10.1 thousand, respectively, or 4.8% and 6.2% of the System's covered payrolls. For FY 1996, the System's and employee contributions actually made were \$8.1 thousand and \$6.8 thousand, respectively, which represents 4.8% and 4.0%, respectively, of the current year covered payroll. For FY 1995, the System's and employee contributions actually made were \$10.1 thousand and \$6.2 thousand, respectively, which represents 6.2% and 3.8%, respectively, of the covered payroll.

In addition to providing pension benefits, the State Employees Group Insurance Act of 1971, as amended, requires that certain health, dental and life insurance benefits shall be provided by the State to annuitants who are former state employees. This includes annuitants of the System. Substantially all State employees including the System's employees may become eligible for post-employment benefits if they eventually become annuitants. Health and dental benefits include basic benefits for annuitants under the State's self-insurance plan and insurance contracts currently in force. Life insurance benefits are limited to five thousand dollars per annuitant age 60 and older.

Costs incurred for health, dental and life insurance for annuitants and their dependents were not separated from benefits provided to active employees and their dependents for the year ended June 30, 1996. However, post-employment costs for the state as a whole for all state agencies/departments for health, dental and life insurance for annuitants and their dependents are disclosed in the State of Illinois Comprehensive Annual Financial Report. Cost information for retirees by individual state agency is not available. Payments are made on a "pay-as-you-go" basis. The System is not the administrator of any of the other post-employment benefits described above.

(11) Analysis of Changes in Fund Balances - Reserved

The funded statutory reserves of the Judges' Retirement System are composed of the following:

(a) Reserve for Participants' Contributions - This reserve consists of participants' accumulated contributions for retirement annuities, survivors' annuities and automatic annual increases.

(b) Reserve for Future Operations - This reserve is the balance remaining in the Judges' Retirement System from State of Illinois contributions and revenue from investments after consideration of charges for pay-outs by the Judges' Retirement System.

JUDGES' RETIREMENT SYSTEM OF ILLINOIS Statements of Changes in Fund Balances (Reserved) Years ended June 30, 1996 and 1995			
	Participants' Contributions	Future Operations	Total Fund Balance
Balance at June 30, 1994	\$ 74,318,731	\$ 133,518,287	\$ 207,837,018
Add (deduct):			
Excess (deficiency) of revenues over expenses	8,940,523	(2,673,514)	6,267,009
Reserve transfers:			
Accumulated contributions of participants who retired or died with eligible survivor during the year	(4,246,563)	4,246,563	-
Balance at June 30, 1995	\$ 79,012,691	\$ 135,091,336	\$ 214,104,027
Add (deduct):			
Excess (deficiency) of revenues over expenses	9,282,436	9,046,530	18,328,966
Reserve transfers:			
Accumulated contributions of participants who retired or died with eligible survivor during the year	(5,867,127)	5,867,127	-
Balance at June 30, 1996	\$ 82,428,000	\$ 150,004,993	\$ 232,432,993

(12) Future Reporting Requirements

In November, 1994, The Governmental Accounting Standards Board adopted Statement No. 25 (Statement) entitled "Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans". The Statement requires that the investments of defined benefit pension plans be reported at their fair (market) value rather than at cost, or amortized cost, as currently required. In addition, the Statement establishes new financial reporting standards which will result in format changes to the financial statements as well as the required supplementary information and may also affect the actuarially determined contribution requirements.

The requirements of the Statement are effective for periods beginning after June 15, 1996, (i.e. fiscal year ending June 30, 1997), with earlier implementation encouraged but not required. If comparative financial statements are presented, restatement of the prior year financial statements is required.

The System intends to adopt the Statement beginning with its fiscal year ending June 30, 1997.

Analysis of Funding Progress

Fiscal Year	(1) Net Assets Available for Benefits*	(2) Pension Benefit Obligation	(3) Percentage Funded (1) ÷ (2)	(4) Unfunded Pension Obligation (2) - (1)	(5) Annual Covered Payroll	(6) Unfunded Pension Benefit Obligation as a % of Covered Payroll (4) ÷ (5)
1987	\$ 138,927,534	\$ 307,064,068	45.2%	\$ 168,136,534	\$ 59,266,115	283.7%
1988	146,534,436	335,307,458	43.7%	188,773,022	62,366,208	302.7%
1989	156,238,762	319,402,592	48.9%	163,163,830	63,478,721	257.0%
1990	166,984,434	366,116,393	45.6%	199,131,959	64,670,416	307.9%
1991	173,989,204	385,528,189	45.1%	211,538,985	66,294,898	319.1%
1992	187,627,388	423,758,708	44.3%	236,131,320	67,904,000	347.7%
1993	199,679,764	458,826,434	43.5%	259,146,670	69,610,000	372.3%
1994	207,837,018	479,129,504	43.4%	271,292,486	70,997,000	382.1%
1995	214,104,027	523,685,631	40.9%	309,581,604	75,314,000	411.1%
1996	232,432,993	577,792,256	40.2%	345,359,263	75,996,000	454.4%

* At cost

Analysis of the dollar amounts of net assets available for benefits, pension benefit obligation, and unfunded pension benefit obligation in isolation can be misleading. Expressing the net assets available for benefits as a percentage of the pension benefit obligation provides one indication of the System's funding status on a going-concern basis. Analysis of this percentage over time indicates whether the System is becoming financially stronger or weaker. Generally, the greater this percentage, the stronger the public employees' retirement system (PERS). Trends in unfunded pension benefit obligation and annual covered payroll are both affected by inflation. Expressing the unfunded pension benefit obligation as a percentage of annual covered payroll approximately adjusts for the effects of inflation and aids analysis of the System's progress made in accumulating sufficient assets to pay benefits when due. Generally, the smaller this percentage, the stronger the PERS.

Revenues by Source and Expenses by Type

Revenues by Source						
FY Ended June 30	Participants' Contributions	Employer Contributions			Income from Investments	Total

Analysis of Employer Contributions - Fiscal Year 1988 through 1996

Fiscal Year (A)	(1) Covered Payroll	(2) State of Illinois Employer Contributions Required (B)	(3) State of Illinois Employer Contributions Required as a % of Covered Payroll (2) ÷ (1)	(4) State of Illinois Employer Contributions Received	(5) State of Illinois Employer Contributions Received as a % of Covered Payroll (4) ÷ (1)	(6) Contributions Required in Excess of Contributions Received (2) - (4)
1988	\$ 62,366,208	\$ 20,182,837	32.4%	\$ 9,137,000	14.7%	\$ 11,045,837
1989	63,478,721	21,990,938	34.6%	9,918,700	15.6%	12,072,238
1990	64,670,416	14,329,107	22.2%	10,657,400	16.5%	3,671,707
1991	66,294,898	12,357,369	18.6%	10,657,400	16.1%	1,699,969
1992	67,904,000	13,160,000	19.4%	10,052,100	14.8%	3,107,900
1993	69,610,000	12,808,000	18.4%	11,099,030	15.9%	1,708,970
1994	70,997,000	14,924,000	21.0%	10,766,000	15.2%	4,158,000
1995	75,314,000	17,367,000	23.1%	10,806,000	14.3%	6,561,000
1996	75,996,000	12,129,000	16.0%	12,129,000	16.0%	-

- (A) = Prior to fiscal year 1988, the Actuary did not determine an "Employer Contribution Required" amount.
- (B) = For fiscal year 1988 and 1989, the State of Illinois required employer contributions were computed in accordance with the Board of Trustee's approved funding policy of normal cost plus interest on the unfunded actuarial liability. For fiscal years 1990 through 1995, required employer contributions were computed in accordance with Public Act 86-0273. Public Act 86-0273 enacted a funding plan under which, starting with fiscal year 1990, the state's contribution was to be increased incrementally over a seven year period so that by fiscal year 1996, the minimum state contribution would be an amount sufficient to meet the normal cost and amortize the unfunded actuarial liability over forty years as a level percent of payroll as determined under the projected unit credit actuarial cost method. For fiscal year 1996, the required employer contributions were computed in accordance with Public Act 88-0593. This funding legislation, which became effective July 1, 1995, provides for a systematic 50 year funding plan with an ultimate goal to fund the cost of maintaining and administering the System at an actuarial funded ratio of 90%. In addition, the new funding plan provides for a 15 year phase-in period to allow the state to adapt to the increased financial commitment. Once the 15 year phase-in period is complete, the state's contribution will then remain at a level percentage of payroll for the next 35 years until the 90% funded level is achieved.

Schedule of Employer Contributions as a Percentage of Covered Payroll

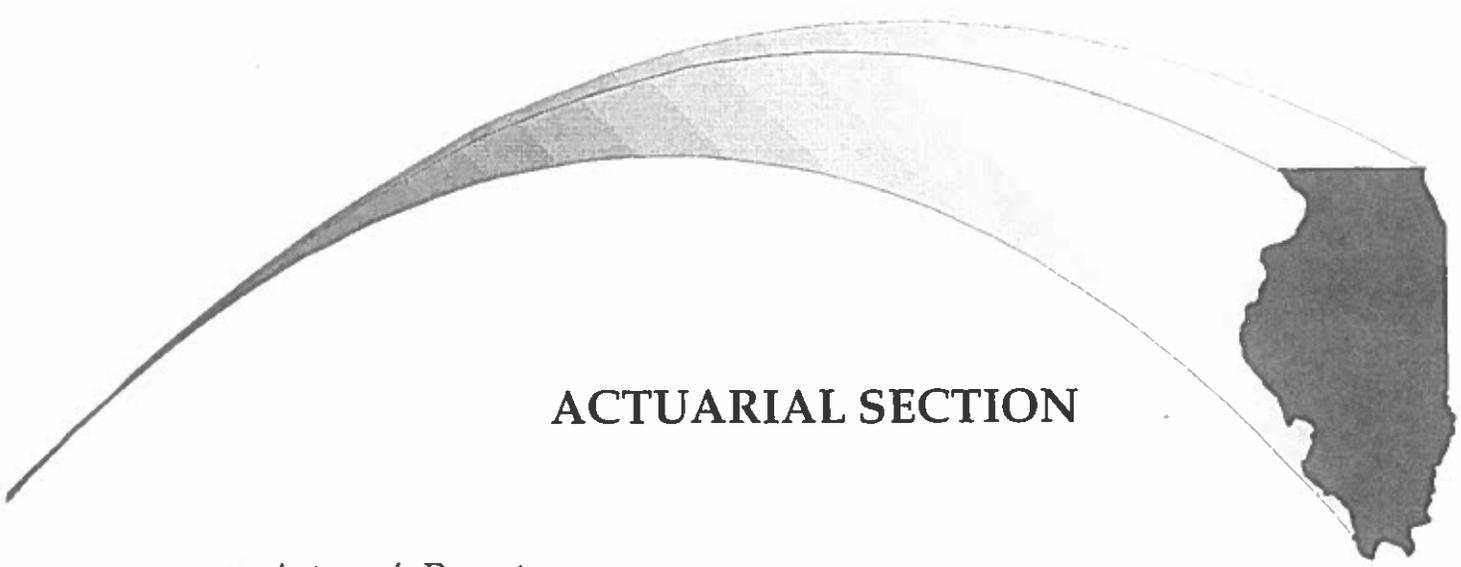

Fiscal Year	Covered Payroll	State of Illinois Employer Contributions Received	State of Illinois Employer Contributions Received as a % of Covered Payroll
1987	\$ 59,266,115	\$ 9,832,000	16.6%
1988	62,366,208	9,137,000	14.7%
1989	63,478,721	9,918,700	15.6%
1990	64,670,416	10,657,400	16.5%
1991	66,294,898	10,657,400	16.1%
1992	67,904,000	10,052,100	14.8%
1993	69,610,000	11,099,030	15.9%
1994	70,997,000	10,766,000	15.2%
1995	75,314,000	10,806,000	14.3%
1996	75,996,000	12,129,000	16.0%

SUMMARY OF REVENUES BY SOURCE

ACTUARIAL CERTIFICATION

I have completed the annual actuarial valuation of the Judges' Retirement System of Illinois as of June 30, 1996. The purpose of the valuation was to determine the financial condition and funding requirements of the retirement system.

Since the last actuarial valuation, there have been no changes in the benefit provisions of the system.

Pursuant to the law governing the system, the actuary shall investigate the experience of the system at least once every five years and recommend, as a result of such investigation, the actuarial assumptions to be adopted. As the actuary, I performed such an experience analysis for the five-year period 1987-1992. Based on this experience analysis, I recommended actuarial assumptions which were adopted by the system's board effective June 30, 1992 and which were used for the current valuation. I believe that, in the aggregate, the current actuarial assumptions relate reasonably to the past and anticipated experience of the system.

Senate Bill 533, which was signed into law on August 22, 1994 as Public Act 88-0593, enacted a new funding plan for the system. The financing objective under this plan is to have the required State contributions sufficient to bring the total assets of the system up to 90% of the total actuarial liabilities by the end of fiscal year 2045. For fiscal years 2011 through 2045, the required State contributions are to be a level percentage of payroll. For fiscal years 1996 through 2010, the State contribution shall be increased as a percentage of the applicable payroll in equal annual increments so that by fiscal year 2011, the State is contributing at the required rate.

GOLDSTEIN & ASSOCIATES
Consulting Actuaries

Based on the June 30, 1996 actuarial valuation, I have determined the required State contribution under this funding plan for fiscal year 1998. I have also estimated the required State contributions for future years.

The asset values used for the valuation were based on the audited asset information reported by the system. For purposes of the current valuation, the book value of the assets of the system (assets valued at cost), less the amount of liabilities, was used. In order to comply with the requirements of GASB Statement No. 25, the market value of the assets of the system was used in estimating the required State contributions for fiscal year 1999 and later.

The actuarial liabilities have been valued on the basis of membership data which is supplied by the administrative staff of the system and verified by the system's auditors. I have made additional tests to ensure its accuracy.

In my opinion, the following schedule of valuation results fairly presents the financial condition of the Judges' Retirement System of Illinois as of June 30, 1996. The contribution rates determined are in compliance with the provisions of the funding plan enacted under Public Act 88-0593.

Respectfully submitted,

Sandor Goldstein
Fellow of the Society of Actuaries
Enrolled Actuary No. 96-3402

INTRODUCTION

Annually, the System's actuarial consultants perform a valuation of the liabilities and reserves of the System in order to make a determination of the amount of contributions required from the state. These results are then certified to the Board.

The Board, in turn, has the duty of certifying an employer contribution amount, required to be paid to the System by the state during the succeeding fiscal year. The employers' contribution amount, together with participants' contributions, income from investments and any other income received by the System, shall be sufficient to meet the cost of maintaining and administering the System on a funded basis in accordance with actuarial requirements, pursuant to Chapter 40, Section 5/18-131 of the Illinois Compiled Statutes.

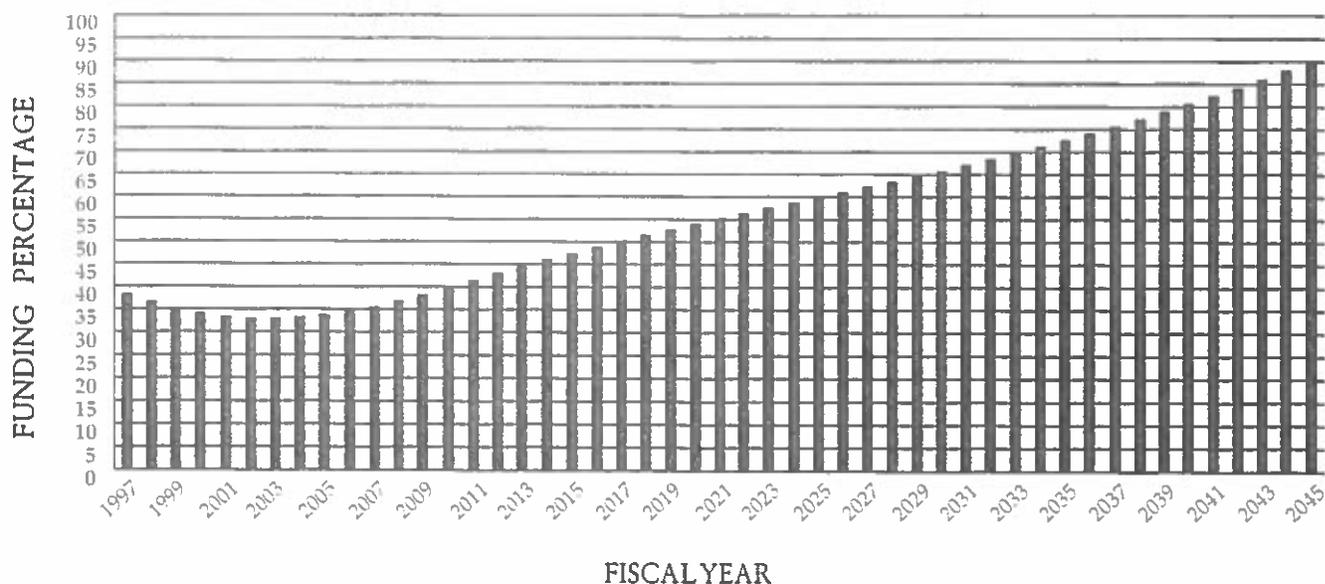

In August 1994, Governor Edgar signed Senate Bill 533 into law as Public Act 88-0593. This funding legislation, which became effective on July 1, 1995, provides for a systematic 50 year funding plan with an ultimate goal to fund the cost of maintaining and administering the System at an actuarial funded ratio of 90%. In addition, the new funding plan provides for a 15 year phase-in period to allow the state to adapt to the increased financial commitment. Once the 15 year phase-in period is complete, the state's contribution will then remain at a level percentage of payroll for the next 35 years until the 90% funded level is achieved.

Most importantly, the new funding legislation also provides for the establishment of a continuing appropriation of the required employer contributions to the System. This will, in effect, remove the appropriation of these funds from the annual budgetary process.

Although long-term in nature, we believe that this legislation is an extremely positive step forward which will ensure the long-term financial integrity of the state's retirement systems including the Judges' Retirement System.

Based upon the state's actual funding method described above, fiscal year 1996 marked the first year the System received the minimum actuarially determined contribution amount.

The System's actuary has projected valuation results commencing with fiscal year 1997. The projection was based on the results of the June 30, 1996 actuarial valuation and the same actuarial assumptions as were used for the valuation. The required employer contributions to the System were calculated in accordance with the contribution requirements in the funding plan established under Public Act 88-0593. Displayed below is a graph of the System's projected funded status which shows the 90% funding level being achieved in fiscal year 2045.

ACTUARIAL COST METHOD AND SUMMARY OF MAJOR ACTUARIAL ASSUMPTIONS

The System utilizes the projected unit credit actuarial cost method. Under this method, the actuarial liability is the actuarial present value or that portion of a participant's projected benefit that is attributable to service to date on the basis of future compensation projected to retirement. The normal cost represents the actuarial present value of the participant's projected benefit that is attributable to service in the current year, again based on future compensation projected to retirement. Actuarial gains and losses are recognized immediately in the unfunded actuarial liability of the System. However, for purposes of determining future employer contributions, the actuarial gains and losses are amortized in accordance with the funding plan established by Public Act 88-0593.

A description of the actuarial assumptions utilized for fiscal year 1996 and fiscal year 1995 follows:

Dates of Adoption: The Projected Unit Credit Normal Cost Method was adopted June 30, 1987; all other assumptions were adopted June 30, 1992.

Mortality Rates: The UP-1984 Mortality Table was used for the valuation.

Termination Rates: Termination rates based on the recent experience of the System were used. The following is a sample of the termination rates that were used:

<u>Age</u>	<u>Rate of Termination</u>	<u>Age</u>	<u>Rate of Termination</u>
30	.066	45	.005
35	.033	50	.003
40	.013	55	.000

Disability Rates: Disability rates based on the recent experience of the System as well as on published disability rate tables were used. The following is a sample of the disability rates that were used for the valuation:

<u>Age</u>	<u>Rate of Disability</u>	<u>Age</u>	<u>Rate of Disability</u>
30	.00057	45	.00115
35	.00064	50	.00170
40	.00083	55	.00000

Retirement Rates: Rates of retirement for each age from 55 to 75 based on the recent experience of the System were used. The following are samples of the rates of retirement that were used:

<u>Age</u>	<u>Rate of Retirement</u>	<u>Age</u>	<u>Rate of Retirement</u>
55	.051	70	.104
60	.127	75	1.000
65	.058		

The above retirement rates are equivalent to an average retirement age of approximately 66.

Salary Increase: A salary increase assumption of 6.0% per year (consisting of a general increase component of 5% per year, 4.5% of which is attributable to inflation, and a seniority / merit component of 1% per year), compounded annually, was used. In determining total covered payroll, the size of the active group is assumed to remain constant.

Interest Rate: An interest rate assumption of 8.0% per year (consisting of an inflation component of 4.5% per year and a real rate of return component of 3.5% per year), compounded annually, was used.

Marital Status: It was assumed that 75% of active participants will be married at the time of retirement.

Spouse's Age: The age of the spouse was assumed to be 4 years younger than the age of the participant.

VALUATION RESULTS

	June 30, 1996	June 30, 1995
Actuarial Liability (reserves):		
For Active Participants:		
Basic retirement annuity	\$ 154,650,600	\$ 142,987,748
Annual increase in retirement annuity	41,213,503	38,031,464
Pre-retirement survivors' annuity	34,544,160	31,467,512
Post-retirement survivors' annuity	19,348,019	18,929,600
Withdrawal benefits	1,244,442	1,166,671
Disability benefits	1,599,454	1,495,112
Total	<u>\$ 252,600,178</u>	<u>\$ 234,078,107</u>
For Participants Receiving Benefits:		
Retirement annuities	\$ 255,803,549	\$ 225,811,621
Survivor annuities	57,742,840	53,459,056
Total	<u>\$ 313,546,389</u>	<u>\$ 279,270,677</u>
For Inactive Participants	\$ 11,645,689	\$ 10,336,847
Total Actuarial Liability	<u>\$ 577,792,256</u>	<u>\$ 523,685,631</u>
Net Assets, Book Value (Cost)	<u>232,432,993</u>	<u>214,104,027</u>
Unfunded Actuarial Liability	<u>\$ 345,359,263</u>	<u>\$ 309,581,604</u>

SHORT-TERM SOLVENCY TEST

A short-term solvency test is one means of checking a system's progress under its funding program. In a short-term solvency test, the plan's present assets (primarily cash and investments) are compared with: 1) active and inactive participant contributions on deposit; 2) the liabilities for future benefits to present retired lives; and 3) the liabilities for service already rendered by active and inactive participants. In a system that has been following level percent of payroll financing, the liabilities for service already rendered by active and inactive participants (liability 3) should be partially covered by the remainder of present assets. If the system continues using level cost financing, the funded portion of liability 3 will increase over time, although it is very rare for a system to have its liability 3 fully funded.

Computed Actuarial Values

Fiscal Year	Aggregate Accrued Liabilities For				Percentage of Accrued Liabilities Covered By Net Real Assets		
	(1)	(2)	(3)	Net Real Assets	(1)	(2)	(3)
	Active and Inactive Participant Contributions	Retirement and Survivor Annuities	Active and Inactive Participants (Employer Financed Portion)

SUMMARY OF ACCRUED AND UNFUNDED ACCRUED LIABILITIES (Analysis of Funding)

In an inflationary economy, the value of the dollar decreases. This environment results in employees' pay and retirement benefits increasing in dollar amounts resulting in unfunded accrued liabilities which increase in dollar amounts, all at a time when the actual substance of these items may be decreasing. Looking at just the dollar amounts of unfunded accrued liabilities can be misleading. The ratio of the unfunded accrued liabilities to active employee payroll provides an index which clarifies understanding. The smaller the ratio of unfunded liabilities to active participant payroll, the stronger the system. Observation of this relative index over a period of years will give an indication of whether the system is becoming financially stronger or weaker.

Fiscal Year	Total Actuarial Liability	Net Assets	Net Assets as a % of Actuarial Liability	Total Unfunded Actuarial Liability	Annual Covered Payroll	Unfunded Actuarial Liability as a % of Annual Covered Payroll
1987	\$ 307,064,068	\$ 138,927,534	45.2%	\$ 168,136,534	\$ 59,266,115	283.7%

INVESTMENT REPORT

By state law the System's investment function is managed by the Illinois State Board of Investment (ISBI). The ISBI was created in 1969 to provide a means of centralizing the investment management function for public employee pension funds and retirement systems operating in the state. In addition to the assets of the Judges' Retirement System, the ISBI also manages the investment function for the General Assembly and State Employees' Retirement Systems. All ISBI investments are accounted for in a commingled fund (ISBI Fund). As of June 30, 1996, total net assets under management valued at market, amounted to \$5.437 billion. Of the total market value of assets under management, \$271.9 million or 4.9% represented assets of the Judges' Retirement System.

Management Approach

The ISBI manages its investments in accordance with the "prudent person rule" as adopted by the Illinois General Assembly in 1982. The ISBI has established a long-range investment policy which, in line with the prudent person rule, affirms that the ISBI Fund's objective is to provide the greatest possible long-term benefits through maximization of the total return of the ISBI Fund, within prudent risk parameters. Further, it is the ISBI's philosophy that the assets owned by the participating systems and managed by the ISBI are held for the exclusive purpose of providing benefits to the participants and annuitants of the respective retirement systems and their beneficiaries. In line with this philosophy, the ISBI from time to time evaluates its asset allocation which is considered by many to be the single most important factor in pension investment management. The three major asset classes are: bonds, equities and cash; with smaller positions being allocated to real estate, venture capital and other alternative investments.

For fiscal 1996, the ISBI monitored the long-range investment policies for conformance with the new three-year plan adopted on July 1, 1995. A number of changes to the strategic asset allocation targets are included in the new plan. The allocation to international equities was increased from 5% to 10%; the real estate allocation was reduced from 10% to 5%; and cash was eliminated as a strategic asset class (with a corresponding increase in the fixed income allocation).

Investment Results

Led by U.S. stocks, capital markets posted impressive gains during fiscal 1996. U.S. and international stocks achieved double digit returns for the period. A good environment for initial public offerings (IPO's) also led to strong returns for many private equity partnerships. Fixed income, struggling against interest rates trending slightly upward, posted modest returns marginally lower than the coupon return. Real estate, after many years of declining values, showed some stabilization during fiscal 1996, with a return roughly equal to the cash on cash rate of return.

ISBI investments earned a total rate of return for fiscal 1996, net of expenses, of 16.6%, well ahead of its long-term objectives of earning 4.5% above the inflation rate; of exceeding the 8.0% assumed actuarial interest rate; and of outperforming the policy-weighted benchmark return of 15.7%. Over longer time periods, the ISBI Fund is comfortably ahead of its investment objectives. The average annual returns for the three and five year periods ended June 30, 1996, were 11.4% and 11.6%, respectively. Over the 14-year period since the adoption of the prudent man legislation, the ISBI Fund has produced a compounded annual rate of return, net of expenses and charges, of 12.6%, and its net assets have increased by \$4.4 billion.

Domestic Equities

For the twelve months ended June 30, 1996, U.S. equity markets soared. The S&P 500 Index increased 26.1%, and the BARRA All-U.S. Index, a broader representation of the domestic market, rose 26.2%. Small capitalization stocks, as measured by the Russell 2000 Index, grew at a slightly smaller rate of 23.9%. Within that context, the ISBI Fund's domestic equity portfolio, which is all managed by external investment firms, earned a return of 25.9%, roughly in line with the broad indices.

The ISBI Fund's domestic stock portfolio has outperformed the S&P 500 Index for both the three and five year periods ended June 30, 1996 as shown below:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>
ISBI	25.9%	17.3%	16.1%
S&P 500	26.1	17.2	15.7

Global/International Equities

Foreign stock markets overall rivalled the U.S. in total return for the fiscal year. However, a generally strengthening dollar, particularly in Japan, somewhat dampened foreign stock returns for U.S. investors. The Morgan Stanley Europe Australia Far East Index ("MSCI EAFE") earned 13.6% in U.S. dollar terms for the fiscal year ended June 30, less than half the 28.9% local currency return. The Morgan Stanley World Index ("MSCI World"), which includes the U.S. market, increased 19.0% in dollar terms for the same period.

All foreign security accounts are managed by external investment firms. "Global" managers have the discretion to invest in both domestic as well as foreign securities, while "international" managers are limited to non-U.S. securities; thereby assuring a certain level of diversification. For the fiscal year the ISBI Fund's global managers performed roughly in line with the MSCI World Index, earning 18.8%. The ISBI Fund's international portfolio outperformed its benchmark, increasing 18.4%, compared to 13.6% for the EAFE Index.

Comparative average annual rates of return for the Global/International equities portfolio versus the market index benchmarks is shown below:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>
Global Equities			
ISBI	18.8%	13.4%	14.2%
MSCI World Index	19.0	13.6	12.5
International Equities			
ISBI	18.4%	13.7%	11.1%
MSCI EAFE Index	13.6	10.8	10.3

Fixed Income

During fiscal 1996, U.S. fixed income markets were impacted by uncertainty about the direction of inflation, with interest rates drifting higher. The Lehman Aggregate Bond Index earned 5.0% for the 12-month period, while high yield bonds, as represented by the Merrill Lynch High Yield Index, did somewhat better with a return of 9.4%.

Substantially all fixed income assets are managed internally, except approximately \$78 million allocated to an external high yield bond manager. The internal account outperformed the Lehman Aggregate Bond index, with a return of 5.8%. Higher returns from the external high yield manager resulted in a total fixed income return of 6.6%.

Comparative average annual rates of return for the total fixed income portfolio versus the market index benchmark is shown below:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>
ISBI	6.6%	6.6%	10.5%
Shearson Lehman Aggregate	5.0	5.3	8.3

Real Estate

All of the ISBI Fund's investments in real estate are passive and are represented by interests in limited partnerships, trusts, and other forms of pooled investments.

Real estate values stabilized during fiscal 1996, and real estate investments included in the ISBI Fund's portfolio earned a 5.5% rate of return, very close to the portfolio's income return. The ISBI believes that the portfolio is well-positioned for steady performance going forward.

Average annual rates of return for the combined real estate portfolio compared to the market benchmark for unleveraged institution grade property returns is shown below:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>
ISBI	5.5%	(1.4)%	(4.2)%
NCRIF	9.5	6.0	1.5

Alternative Investments

The alternative investments portfolio consists of passive interests in limited partnerships and other commingled vehicles that invest in venture capital, management buyouts and other private placement activities. The portfolio's largest investment is with the Kohlberg Kravis Roberts (KKR) leveraged buyout limited partnership, which accounts for almost 80% of this category. Fiscal 1996 was a good year for alternative investments. A strong initial public offering (IPO) market allowed a number of portfolio companies to gain access to the auction markets, thereby producing liquidity and/or actual cash returns to the ISBI Fund. In addition, a number of transactions in the KKR portfolio, including the dispositions of First Interstate and Safeway stock, produced strong cash flow for the ISBI Fund. Overall, the category earned 35.1% for the fiscal year.

The ISBI made commitments totalling \$37.5 million to four new limited partnerships in fiscal 1996. Although the current allocation to this asset class is not significantly below the long-term target, in order to maintain the level of investment, new commitments are necessary over time to balance anticipated distributions from maturing partnerships. The new partnerships are Summit Ventures IV; Golder, Thoma, Cressey, Rauner Fund V; Madison Dearborn Capital Partners II; and Interwest Partners VI. Funds for these future commitments will come from cash flow generated from existing alternative investments.

Management Expenses

Total operating expenses, primarily fees to external managers, for the fiscal year were \$15,511,389, compared to \$13,859,829 for the previous fiscal year. The expense ratio (expenses divided by average net assets under management) was .30% in fiscal 1996, compared to .31% in fiscal 1995.

Additional Information

For additional information regarding the System's investment function, please refer to the Annual Report of the Illinois State Board of Investment, June 30, 1996. A copy of the report can be obtained from the ISBI at 180 North LaSalle Street, Suite 2015, Chicago, Illinois 60601.

*Total return is the combined effect of income earned and market appreciation (depreciation). Average net income yield is the income earned for the year divided by the average market value of assets employed.

ADDITIONAL INVESTMENT INFORMATION

Gross investment income for FY 1996 of \$11,165,975 less the ISBI's administrative expenses of \$782,134 resulted in net investment income of \$10,383,841. This amount, when combined with the net realized gain on sale of investments of \$19,661,969, provided net revenue from investments of \$30,045,810. Net cash transfers from the Illinois State Board of Investment were \$11,400,000 during FY 1996. The balance of investments at cost increased by \$18,645,810 from June 30, 1995 thru June 30, 1996. The following table shows a comparison of investment operations for FY 1996 and FY 1995.

	1996	1995	Increase/(Decrease)	
			Amount	Percentage
Balance at beginning				
of year, at cost	\$ 208,585,962	\$ 201,873,106	\$ 6,712,856	3.3%
Cash transferred from ISBI (net)	(11,400,000)	(9,000,000)	2,400,000	26.7%
Investment income:				
Commingled Fund income	\$ 11,165,975	\$ 11,490,719	\$ (324,744)	(2.8)%
Less Expenses	(782,134)	(705,000)	77,134	10.9%
Net investment income	<u>\$ 10,383,841</u>	<u>\$ 10,785,719</u>	<u>\$ (401,878)</u>	<u>(3.7)%</u>
Distributed Net Realized Gain				
on Sale of Investments	\$ 19,661,969	\$ 4,927,137	\$ 14,734,832	299.1%
Balance at end				
of year, at cost	<u>\$ 227,231,772</u>	<u>\$ 208,585,962</u>	<u>\$ 18,645,810</u>	<u>8.9%</u>
Market value	<u>\$ 271,897,778</u>	<u>\$ 243,816,001</u>	<u>\$ 28,081,777</u>	<u>11.5%</u>

In addition, interest on the average balance in the System's Trust Fund account for FY 1996 was \$274,272 compared to \$287,673 during FY 1995 primarily due to lower average balances during FY 1996.

SUMMARY OF RETIREMENT SYSTEM PLAN (As of June 30, 1996)

1. PURPOSE

The purpose of the System is to establish an efficient method of permitting retirement, without hardship or prejudice, of judges who are aged or otherwise incapacitated, by enabling them to accumulate reserves for themselves and their dependents for old age, disability, death and termination of employment.

2. ADMINISTRATION

Responsibility for the operation of the System and the direction of its policies is vested in a Board of Trustees consisting of five members. The administration of the detailed affairs of the System is the responsibility of the Executive Secretary who is appointed by the Board of Trustees. Administrative policies and procedures are designed to ensure an accurate accounting of funds of the System and prompt payment of claims for benefits within the applicable statute.

3. EMPLOYEE MEMBERSHIP

All persons elected or appointed as a judge or associate judge of a Court become members of the System unless they file an election not to participate within 30 days of the date they are notified of this option.

4. PARTICIPANT CONTRIBUTIONS

Participants are required to contribute a percentage of salary as their share of meeting the various benefits at the rates shown below:

Retirement Annuity	7.5%
Automatic Annual Increase	1.0%
Survivors' Annuity	<u>2.5%</u>
	<u>11.0%</u>

A judge who elects not to participate in the survivors' annuity benefit is not required to make contributions for the survivors' annuity benefit in which case the total participant contribution rate is 8 1/2% of salary. Contributions for survivors' annuity are not required to qualify an eligible child for a child's annuity.

A participant who is qualified to receive the maximum rate of annuity may elect to discontinue contributions and have benefits "frozen" based upon the applicable salary in effect immediately prior to the effective date of such election. The election, once made, is irrevocable.

5. RETIREMENT ANNUITY

A. Qualification of Participant

Upon termination of service, a judge is eligible for a retirement annuity at:

- (1) age 60 with at least 10 years of credit
- (2) age 62 with at least 6 years of credit
- (3) age 55 with at least 28 years of credit
- (4) age 55 with at least 10 years of credit with the annuity reduced 1/2 of 1% for each month under age 60

B. Amount of Annuity

The retirement annuity is determined according to the following formula based upon the applicable salary:

- 3.5% for each of the first 10 years of credit
- 5.0% for each year of credit above 10 years

The maximum annuity is 85% of final salary on the last day of employment as a judge or for any judge terminating service after July 14, 1995, the highest salary received as a judge for at least 4 consecutive years, whichever is greater, after 20 years of service.

C. Annual Increases in Retirement Annuity

Post retirement increases of 3% of the current amount of annuity are granted to participants effective in January of the year next following the first anniversary of retirement and in January of each year thereafter.

D. Suspension of Retirement Annuity

The retirement annuity to any judge shall be suspended

1. When the annuitant is employed for compensation by the State of Illinois as a judge, or

2. When the annuitant is employed for compensation by the State of Illinois in a permanent position or, after 75 working days in any calendar year in which the annuitant is employed for compensation by the State of Illinois in a temporary position other than a judge.

If the provisions of the Retirement Systems' Reciprocal Act are elected at retirement, any employment which would result in the suspension of benefits under any of the retirement systems being considered would also cause the annuity payment by the Judges' Retirement System to be suspended.

6. SURVIVORS' ANNUITY

A. Qualification of Survivor

If death occurs while in service as a judge, the judge must have established 1 1/2 years of credit. If death occurs after termination of service and prior to receipt of retirement annuity, the participant must have established at least 10 years of credit.

An eligible spouse, who has been married to the participant or annuitant for a continuous period of at least one year immediately preceding the date of death, qualifies at age 50 or at any age if there is in the care of the spouse any unmarried children of the member (1) under age 18 or (2) over age 18 if mentally or physically disabled or (3) under age 22 and a full-time student. Eligible surviving children would be entitled to benefits even though the participant did not contribute for the survivors' annuity benefit.

B. Amount of Payment

If the participant's death occurs while in service, and assuming all payments have been made for full survivors' annuity credit, the surviving spouse would be eligible to 7 1/2% of salary or 66 2/3% of earned retirement annuity, whichever is greater. Eligible children of the participant would receive 5% of salary for each child with a maximum for all children of 20% of salary or 66 2/3% of earned retirement annuity, whichever is greater, regardless of whether full credit had been established for the survivors' annuity benefit.

If the participant's death occurs after termination of service or retirement, and assuming all payments have been made for full survivors' annuity credit, the surviving spouse would be eligible to 66 2/3% of earned retirement annuity. Eligible children would receive a survivors' annuity equal to the benefit of surviving children of a participant in service.

The benefit payment amount to a surviving spouse would be a prorated share of the full benefit amount noted above if the participant married or remarried after becoming a participant and elected to contribute for the survivors' annuity benefit prospectively from the date of marriage or remarriage.

C. Annual Increases in Survivors' Annuity

Increases of 3% of the current amount of annuity are granted to survivors in each January occurring on or after the commencement of the annuity if the deceased participant died while receiving a retirement annuity. In the event of an active participant's death, increases of 3% of the current amount of annuity are granted to survivors effective in January of the year next following the first anniversary of the commencement of the annuity and in January of each year thereafter.

D. Duration of Payment

When all children, except for disabled children, are ineligible because of death, marriage or attainment of age 18 or age 22 in the case of a full-time student, the spouse's benefit is suspended if the spouse is under age 50 until attainment of such age. A surviving spouse who remarries prior to age 50 would be disqualified for any future benefit payments.

7. DEATH BENEFITS

The following lump sum death benefits are considered only if there are no eligible survivors' annuity beneficiaries surviving the deceased participant.

A. Before Retirement

If the participant's death occurs before retirement, a refund of total contributions in the participant's account.

B. After Retirement

If the participant's death occurs after retirement, a refund of the excess of contributions over annuity payments, if any.

C. Death of Survivor Annuitant

Upon death of the survivor annuitant with no further survivors' annuity payable, a refund of excess contributions over total retirement and survivors' annuity payments, if any.

8. DISABILITY BENEFIT

A. Permanent Total Disability

A participant who becomes totally and permanently disabled while serving as a judge with at least 10 years of credit is eligible for an unreduced retirement annuity regardless of age. If disability is service-connected, the annuity is subject to reduction by amounts received by a participant under the Workers' Compensation Act and the Workers' Occupational Diseases Act.

B. Temporary Total Disability

A participant with at least 2 years of service as a judge who becomes totally disabled and unable to perform the duties as a judge is entitled to a temporary disability benefit equal to 50% of salary payable during disability but not beyond the end of the term of office.

9. REFUND OF CONTRIBUTIONS

A participant who terminates service as a judge may obtain a refund of total contributions made to the System, without interest, provided the participant is not immediately eligible to receive a retirement annuity. By accepting a refund, a participant forfeits all accrued rights and benefits in the System for his or herself and beneficiaries.

A participant who becomes unmarried, either before or after retirement, is entitled to a refund of contributions made for the survivors' annuity benefit.

LEGISLATIVE AMENDMENTS

Legislative amendments with an effective date during fiscal year 1996 having an impact on the System were:

SENATE BILL 114 (P.A. 89-0136)

There were several substantive changes to the Pension Code, as well as the State Finance Act, which were included in this bill. The provisions of the bill which affect the operations of the System are as follows:

1. Defines final average salary for participants who terminate service on or after the effective date of this legislation as the salary on the last day of employment as a judge, or the highest salary received by the participant for employment as a judge in a position held by the participant for at least four consecutive years, whichever is greater.
2. Allows a participant to rescind his or her election to discontinue contributions by (1) filing with the System's Board prior to July 1, 1996 a letter cancelling the election to discontinue contributions and (2) paying to the System an amount equal to the total of the discontinued contributions plus interest thereon at 5% per annum.

NEW LEGISLATION

There were no legislative amendments with an effective date subsequent to June 30, 1996, affecting the operation of the System.
